PROFILE SUMMARY

Highly motivated Frontend Developer with one year of experience. Adept at transforming complex requirements into user-friendly solutions, leveraging problem-solving and teamwork skills at IT Time Agency and Limsa. Developed custom APIs and enhanced user interfaces, significantly improving project outcomes and client satisfaction.

WORK EXPERIENCE

Limsa, *Frontend Developer*   February 2024 – current
- Troubleshot complex issues under pressure, enhancing user experience through intuitive interfaces.
- Experienced in integrating and managing RESTful APIs using the Fetch API to create seamless and efficient data communication between front-end interfaces and backend services in various web applications.

IT Time Agency, *Frontend Developer*   July 2023 – January 2024
- Continuously updated skills through training courses, workshops, and self-study—staying current on industry trends and emerging technologies. Debugged complex software issues, leading to a more stable product release.
- Enhanced user experience by developing and implementing responsive web designs.

PROJECTS

Zamontour Business Travel Agency
- Designed and implemented the website using React, creating a visually appealing, responsive, and intuitive user interface.

Autozoom Rental
- Developed the Autozoom Rental website using React, integrating various APIs for real-time data and enhanced functionality.
- Engineered an efficient Admin Panel, providing comprehensive control and management capabilities for the platform.
